## Half Year Financial Statement

### *1(a)(ii) Notes to the income statement*

	Note	GROUP		GROUP	
		3 months ended 30 June 2013 S\$'000	3 months ended 30 June 2012 S\$'000	6 months ended 30 June 2013 S\$'000	6 months ended 30 June 2012 S\$'000
Depreciation of property, plant and equipment	(1)	2,468	1,960	4,851	3,842
Exchange (gain)/loss net		(18)	(74)	7	37
(Gain)/Loss on disposal of property, plant and equipment		(16)	14	(14)	19
<b>Other income:</b>					
Rental received	(2)	299	258	599	521
Sale of scrap materials		235	239	478	483
Government grants	(3)	32	9	756	63
Miscellaneous income		294	574	594	791
Gain on disposal of Leasehold Property	(4)	-	-	-	10,465
		860	1,080	2,427	12,323
<b>Tax</b>					
Underprovision in respect of prior years	(5)	-	-	-	1,626

### Notes

1. The increase in depreciation was attributable mainly to the new office and distribution centre in Mandai Link and the fitting out of the new retail stores.
2. Rental received is derived from leasing of excess space at some of the retail stores.
3. Grants were from Government agencies in partial support of an IT related productivity improvement program as well as grants under the Special Employment Credit Scheme.
4. The gain for 1H2012 was from the sale of the old warehouse at 3000 Marsiling Road ("Leasehold property"), which was no longer needed after the Group moved to the new distribution centre in July 2011. This sale was completed in 1Q2012.
5. The underprovision in 1H2012 was related to the tax on the gain on disposal of available for sale investment in FY2010, which was previously deemed as capital in nature. IRAS had assessed and the Group had paid the tax in 2013 under objection.

## Half Year Financial Statement

4. *Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.*

The Group has applied the same accounting policies and computation methods used in the preparation of the financial statements for the current reporting period as compared with the audited financial statements as at 31 December 2012, except for the adoption of the new and revised Financial Reporting Standards (FRS) which become effective for the financial year beginning on or after 1 January 2013. The adoption of these new and revised accounting standards did not give rise to any significant changes to the financial statements.

5. *If there any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.*

Please refer to paragraph 4.

6. *Earnings per ordinary share of the group for the current period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.*

## Half Year Financial Statement

7. *Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares excluding treasury shares of the issuer at the end of the (a) current period reported on and (b) immediately preceding financial year.*

	GROUP		COMPANY	
	30 June 2013 cents	31 Dec 2012 cents	30 June 2013 cents	31 Dec 2012 cents
Net asset value per ordinary share based on issued share capital at the end of the period reported on	10.59	10.96	12.66	13.20

8. *A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. The review must discuss any significant factors that affected the turnover, costs and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors. It must also discuss any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.*

## INCOME STATEMENT

### OVERVIEW

Net profit for 1H2013 declined by 20.4% to \$19.0m compared with 1H2012. However, after excluding non-core items in 1H2012, consisting of a one time gain of \$10.5m from the sale of the warehouse and a provision of \$1.6m for prior year's tax, the core profit of \$19.0m is 26.7% higher than 1H2012's core profit of \$15.0m.

The improvement in core profit came mainly from higher revenue, contributed by new stores' sales and consequently the higher gross profits which was enhanced by improved gross margins. This was however, offset by lower comparable same store sales and higher operating expenses.

Similarly, core profit for 2Q2013 of \$8.5m was 20.8% higher than 2Q2012.

	As at 30 June 2012	As at 31 March 2013	As at 30 June 2013
Number of stores	27	33	33
Retail area	368,000 square feet	400,000 square feet	400,000 square feet

### REVENUE

#### 2Q2013 compared with 2Q2012

There were no new stores opened in the first half of 2013. For the purpose of computing comparable same store sales, the three new stores opened in 2011 and 8 new stores opened in 2012 were considered as new stores and were excluded.

Revenue increased by \$12.8m (8.7%) mainly because of the increase in sales from the new stores amounting to \$20.1m which were offset by lower comparable same store sales of \$7.3m. The decline in comparable same store sales came mainly from the old stores in matured HDB estates, stores which were affected by competitors' activities, the Bedok Central and Verge stores which were affected by ongoing construction works in the vicinity and the store at Ang Mo Kio which was closed for about a month for major renovation. Excluding the stores affected by building and renovation works, comparable same store sales declined by 1.8%.

#### 1H2013 compared with 1H2012

Revenue increased by \$32.4m or 10.6%, brought about mainly from contribution from new stores amounting to \$42.8m which were offset by lower comparable same store sales. Comparable same store sales continued to decline as explained above. In addition, the Teban store was closed for a month in 1Q2013 for renovation. Excluding these stores which were affected by building works comparable same store sales declined by 1.0%.

### COST OF SALES

### GROSS MARGIN

2Q2012	1Q2013	2Q2013	HY2012	HY2013
21.9%	22.5%	23.2%	21.4%	22.8%

Gross margins increased significantly to 23.2% in 2Q2013 compared with 21.9% in 2Q2012, but this may not be strictly comparable because gross margins in 2Q2012 were still recovering from the effect of the price war which started in the last quarter of 2011. On a sequential basis, 2Q2013 margin was an improvement over 1Q2013's margin of 22.5% because of stable selling prices, better sales mix and lower input cost brought about by efficiencies derived from the Mandai Distribution Centre which was offset by increases in some product costs which could not be recovered in full from the customers.

Comparing on a year-on-year basis, gross margin for 1H2013 improved to 22.8% from 21.4% for the same reasons explained above.

### OTHER INCOME

Excluding the one time gain of \$10.5m from the sale of the old warehouse in 1Q2012, other income increased by \$0.6m in 1H2013 compared with 1H2012. The bulk of the increase was from Government grants received in 1Q2013 for an IT related productivity improvement project as well as grants under the Special Employment Credit Scheme.

# SHENG SIONG GROUP LTD

## Half Year Financial Statement

### EXPENSES

#### Distribution expenses

The increase in distribution expenses year-on-year for the quarter and the half year were broadly in-line with the increase in revenue. The increase was attributable mainly to depreciation of the new trucks acquired to replace and augment the fleet.

#### Administrative Expenses

Administrative Expenses as a % of sales:

2Q2013	2Q2012	1H2013	1H2012
\$26.3m	\$23.8m	54.3m	47.0m
16.5%	16.2%	16.0%	15.3%

Increases were mainly in the following expenses:-

	2Q2013 vs 2Q2012	1H2013 vs 1H2012
	\$'000	\$'000
Staff costs	842	3,397
Foreign workers' levy	386	861
Rental of outlets	797	1,723
Depreciation	235	460
Property tax of distribution centre	146	285
Others	137	584
<b>Total increase</b>	<b>2,543</b>	<b>7,310</b>

Increases in staff cost were attributable mainly to the additional headcount required to operate the new outlets and a higher provision for bonus as a result of the higher operating profit. The increase was skewed in 1Q2013 mainly because of a higher level of bonus provision as operating profit in 1Q2013 was higher than 2Q2013. Foreign workers' levy increased mainly because of higher headcount as well as increase in the foreign workers' levy rate.

Rental of retail outlets increased mainly because of the higher store count and higher rental reversions. The increase for 1H2013 was more than double 2Q2013's increase because of rental and tentage for outdoor display during the Chinese New Year period. Property tax was higher as IRAS assessed a higher annual value on the Mandai Distribution Centre towards the end of 2012. The increase in depreciation was mainly from the capital expenditure spent in fitting out new outlets.

#### Other expenses

The higher sales volume resulting in a higher level of credit card transactions was the main reason for the increase of \$0.1m in 1H2013.

### Finance Income

Interests earned on fixed deposits were lower mainly because of the slightly lower level of the principal amount.

### Tax

The effective tax rate for both 1Q2013 and 1H2013 approximates the statutory rate of 17%.

## CONSOLIDATED STATEMENT OF FINANCIAL POSITION

Inventory at 30 June 2013 was lower by \$6.3m compared with 31 December 2012 as a higher level of inventory was carried at year end to cater for Chinese New Year sales in January and early February 2013.

Sales were conducted principally in cash and balances due from trade and other receivables as at 30 June 2013 remained low. The slight increase in trade and other receivables was only \$0.8m, which was attributable mainly to a higher level of receivables from credit card companies in line with higher revenue.

Trade and other payables as at 30 June 2013 decreased by \$3.2m mainly because of lower trade and other payables of \$4.7m which was offset by higher accruals of \$1.5m. Trade payables declined mainly because of a lower level of purchases.

## CASH FLOW

Sales are mostly made on a cash basis. There were no major changes to the payment cycle.

### 2Q2013

Cash generated from operating activities of \$21.0m came from adjusted profit of \$12.6m and changes in working capital of \$11.1m, of which trade and other payables contributed \$9.7m, consisting of \$6.6m in trade payables and \$3.1 in accruals. The increase in trade payable at the end of the first quarter restored trade payable to a normal level. Payment for property, plant and equipment for the stores as well as the distribution centre amounted to \$2.4m, and after deducting the payment of the final dividend for FY2012 amounting to \$24.2m, cash and cash equivalents decreased by \$5.5m.

### 1H2013

Cash generated from operation was \$24.8m compared with \$7.8m in 1H2012. The improvement came mainly from higher operating profit and better use of working capital arising from a lower level of inventory, offset by a much smaller decrease in trade payable. Purchases of property, plant and equipment amounted to \$3.7m and together with the payment of the final dividend of \$24.2m for FY2012, cash and cash equivalent decreased by \$2.7m. Cash and cash equivalent, which represented 50.7% of the Group's total assets, remained at a healthy level of \$117.6m as at 30 June 2013.

# SHENG SIONG GROUP LTD

## Half Year Financial Statement

9. *Where a forecast, or a prospect statement, has been previously disclosed to shareholders, any variance between it and the actual results.*

Not applicable.

10. *A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.*

Competition in the supermarket industry remains keen and with interest rates moving up and major central banks driving up inflationary expectations, consumers will continue to be even more cost conscious. This may affect our ability to pass on increases in input cost in full to the customers.

One of our competitors had re-branded their chain of supermarkets and we expect to see keener competition. The Group is still looking for suitable retail space in areas where the Group does not have a presence. However, competition for retail space has not abated and looking for suitable retail outlets may be challenging.

Costs pressures, in particular, manpower costs are mounting across the entire economy. Without exception, the supermarket industry is also facing a tightening of availability of foreign workers. Cost is expected to rise because of higher levies for the employment of foreign workers. There are also market pressures to adjust upwards the wages of low-wage staff.

Food inflation was 1.8% in the first five months of this year compared with the same period in the previous year. Food inflation may spike because of unforeseen changes to weather, supply chain disruption etc, as evidenced by the increase in vegetable prices in April and May 2013. The Group may not be able to pass on increases in prices in full to the customers.

As some of our old stores in matured housing estates have seen declining same store sales, we may be earmarking these stores for major re-fitting, which could mean a month or so of lost sales for each of the affected stores.

### 11. Dividend

(a) *Current Financial Period Reported On*

Yes

Name of Dividend	Interim
Dividend Type	Cash
Dividend Rate	1.2 cent per share
Tax rate	Tax exempt (one-tier)

# SHENG SIONG GROUP LTD

Half Year Financial Statement
